

A/C Fresh

"When I turn on my A/C, my car interior smells musty and foul!"

"How do I get rid of that odor?"

EASY 3 steps

● Fast, easy way to attack A/C odor problem

- Refreshes Interior & air duct system
- Eliminates bad odors
- Fast acting
- Removes A/C mildew odors

1 Turn A/C to cold, turn fan to max. Turn air selector to outside air. Get out of car & close doors.

2 Find outside A/C air intake vent by windshield wipers. It may be under the hood.

3 Spray A/C Fresh directly in the vents.

- Small car – 10 sprays
- Large car – 15 sprays
- Truck – 20 sprays

Stock # C-185
8 fl. oz., 6/cs

Shut off both the engine and air conditioning 1 – 2 minutes after applying A/C Fresh. Reapply as necessary.
